## 2. Look for the ENERGY STAR logo

Lighting is one of the easiest places to start saving energy. Just replacing your five most frequently used light fixtures or the bulbs in them with ENERGY STAR qualified lights can save up to \$70 a year in energy costs.

**ENERGY STAR qualified light emitting diodes light bulbs (LEDs)**

- Provide high-quality light output
- Use less energy
- Last up to 25 times longer
- Save money on energy bills
